# Rooms

Design by Roger Webb Associates

The Rooms range is designed to define space and create a sense of place. Rooms needs no planning permission and has no fixed walls. A flexible and reconfigurable free-standing structure designed to create informal and formal workspace solutions to meet, socialise, focus and collaborate. Offering visual and acoustic privacy solutions, Rooms is available with a variety of walls to create spaces with endless functionality, with optional acoustic ceiling baffles also available.

# Rooms

## Features & benefits

### Product Information

- A modular structure with 4 open sides that can be built with multiple wall options
- Designed to define space and create a sense of place, creating an organic feeling of being outdoors, indoors
- Multiple sizes available based on 2.4m, 3.0m and 4.0m walls. Adjoining Rooms available
- A simple kit of parts: 5 step specification
- A post and beam system that defines settings, even without adding walls
- Aluminium structure with oak or coloured cladding from the Egger & Fenix ranges
- Endless configurations & functionalities, allowing creative freedom in design
- Highly customisable with colour, materials and technology
- Freestanding – does not fix to ceiling, floor or walls. Does not affect space delapse. Floor track only required for glazed walls
- Plug & Play: The electrification of the whole Rooms works through the plug-in of one single power socket
- Flexibility in power, can be fed from floor or ceiling
- Simple installation – 3-person assembly in 2 hours
- Designed to disassemble and reposition, a future-proof investment which can be moved or reconfigured
- Double sided walls, allowing coherent settings to be created around the exterior, supported by monitors or white boards
- Part made from natural and recycled materials
- M&E (Mechanical & Engineering) not affected
- British design. Made in the UK
